

The screenshot shows a Java application running in an IDE. The code in the main class is as follows:

```
1 // To change this license header, choose License Headers in Project Properties.
2 // To change this template file, choose Tools | Templates.
3 // and open the template in the editor.
4 /*
5  * Author: Dzidner
6  */
7 package javaapplication4;
8 /**
9  * Spans args the command line arguments
10 */
11 public class JavaApplication4 {
12     /**
13      * Spans args the command line arguments
14      */
15     public static void main(String[] args) {
16         int num = 5;
17         System.out.println("Это переменная num: " + num);
18         num = num * 5;
19         System.out.println("Значение переменной num * 5 равно " + num);
20         System.out.println(num);
21     }
22 }
23
24
25
26 }
```

The output window shows the following results:

```
JavaApplication4[run] x
run
Это переменная num: 5
Значение переменной num * 5 равно
25
СБОРКА УСПЕШНО ЗАВЕРШЕНА (общее время: 0 секунд)
```
